

Errata and updates for ASM Exam 3L (Tenth Edition Fourth Printing) sorted by page

[12/17/2011] On page 6, on the first line of Section 1.3, $\Pr(B \neq 0)$ should be $\Pr(B) \neq 0$.

[11/3/2011] On page 44, in the solution to question 3.14, on the second displayed line, change 100 to 300.

[2/5/2012] On page 171, in Table 12.1, replace the enumerated list in the second bullet with:

1. $(0, S^2(n-1)/w_\alpha)$.
2. $(S^2(n-1)/w_{1-\alpha}, \infty)$.
3. $(S^2(n-1)/w_{1-\alpha/2}, S^2(n-1)/w_{\alpha/2})$.

[12/20/2011] On page 239, in the solution to exercise 17.6, the second sentence is cut off and should read

It's the usual CAS type of humor—it's not that the answer cannot be determined from the given information (almost never the right answer choice), rather there is too much information provided.

[12/19/2011] On page 281, 4 lines above the graph, change $\hat{e}_{x:\overline{n}}$ to $\hat{e}u : \overline{n}$.

[1/23/2012] On page 361, in the solution to Quiz 23-1, on the second displayed line, replace $A_{30:\overline{10}}$ with $A_{30:\overline{10}}^{\frac{1}{i}}$.

[1/30/2012] On page 370, in exercise 24.4, answer choice B. should be 375.

[12/27/2011] On page 429, in the solution to question 26.21, on the third displayed line, remove the negative sign at the start of the line.

[2/12/2012] On page 722, in question 39.8, on the second line from the end of the question, change i from 0.025 to 0.03.
